

THE ART OF GLASS SINCE 1475

Nestled in the forests of the Lorraine and Franche-Comté region of France, La Rochère has been producing artisanal glass for more than 500 years, making it the oldest continuously running glass factory in Europe.

The company is recognised around the world for designing and producing authentic, high quality glassware with French style for today's modern home.

Since 1475, our master-glassmakers have been creating authentic products. Pressed glass and mouth-blown crystalline form part of the key expertise we have acquired over generations.

Drawing inspiration from both our archives and French art of living, our designers work to decorate modern, everyday tables with their unique creations, some of which, including the Abeille bee design, have become iconic.

Proudly displaying the Napoleon symbol of "l'Abeille", the bee, this signature La Rochere glass collection sets a joyful table. Recalling a moment in French history, this original bee design is inspired by a famous pattern which belonged to Napoleon. It is also a symbol of the South of France and its magical countryside. The collection's charming bees and pure, modern silhouette make this ultra versatile set perfect for both casual entertaining and everyday use.

Inspired by the iconic palace, Versailles is decorated with an elegant shell and flower motif, putting French grandeur at your fingertips. The collection draws from the palace's exquisite baroque panels and gardens, accented with scallop sea shells for a sophisticated style that translates seamlessly from everyday elegance to festive table.
