100% RECYCLED GLASS

Our product is true 100% post consumer recycled glass.

Did you know that glass is 100% recyclable and can be endlessly recycled with no loss of quality?

Aside from reducing landfill waste, there are so many environmental benefits to recycling glass.

When glass is made from raw materials, such as sand, soda ash & limestone, these have to be quarried - using up natural resources and utilising energy for extraction and processing. By recycling we conserve these natural resources, we save energy, and we reduce industrial pollution.

Also, compared with making glass from raw materials, recycled glass melts at a much lower temperature meaning less energy used and lower CO² emissions.

FAUX LEATHER TRAYS

We've re-imagined the tray to create something altogether more versatile - A multifunctional design that frees up time and space.

Fold up the handles to carry.
Fold flat to create a handy placemat.
Flip over for a cool new look!

Patent No. 2 481 085

FAUX LEATHER PLACEMATS & COASTERS

Reversible stylish placemats & coasters allow you to simply flip over to change the mood.
All of our placemats are large enough for a complete place setting.

THE ART OF GLASS SINCE 1475

Nestled in the forests of the Lorraine and Franche-Comté region of France, La Rochère has been producing artisanal glass for more than 500 years, making it the oldest continuously running glass factory in Europe. The company is recognised around the world for designing and producing authentic, high quality glassware with French style for today's modern home.

Since 1475, our master-glassmakers have been creating authentic products. Pressed glass and mouth-blown crystalline form part of the key expertise we have acquired over generations.

Drawing inspiration from both our archives and French art of living, our designers work to decorate modern, everyday tables with their unique creations, some of which, including the Abeille bee design, have become iconic.

Proudly displaying the Napoleon symbol of "l'Abeille", the bee, this signature La Rochere glass collection sets a joyful table. Recalling a moment in French history, this original bee design is inspired by a famous pattern which belonged to Napoleon. It is also a symbol of the South of France and its magical countryside. The collection's charming bees and pure, modern silhouette make this ultra versatile set perfect for both casual entertaining and everyday use.

Inspired by the iconic palace, Versailles is decorated with an elegant shell and flower motif, putting French grandeur at your fingertips. The collection draws from the palace's exquisite baroque panels and gardens, accented with scallop sea shells for a sophisticated style that translates seamlessly from everyday elegance to festive table.

The ALICE ice cream cup and cocktail bowl brings a touch of elegance to your desserts or aperitifs. Its slender design and finely striated decoration will brighten up your receptions and add a note of fantasy to your tastings. Crafted with care, this one-of-a-kind cup is perfect for celebrating your special moments. ALICE is sturdy and stackable, and its gob catches the light beautifully to give a chic, festive glow to your table.

Vacuum Storage

These containers seal airtight and have a vacuum valve to use with the vacuum pump to remove air and create a vacuum preventing oxygen from spoiling the food and limiting bacterial growth. This method keeps food fresh for up to 5 times longer to reduce food waste.

Our lidded bakeware can be taken straight from the oven to the table. Thanks to a sturdy glass lid with a silicone seal, food stays fresh longer, flavours are preserved and transport is easier. This lid also ensures optimal heat retention and ideal protection for taking meals outside, while avoiding the use of cling film and aluminium foil. They can also be stacked in the refrigerator with other containers, contributing to optimal & functional storage.

BRA: Design & Technology

At the heart of every home lies the kitchen, and at the centre of every kitchen, our innovative cookware.

As market leaders, at BRA®, we understand that excellence in cookware comes not only from functionality but also from innovation, design, and advanced technology.

From frying-pans with new non-stick coatings to novel utensils that make food preparation easier, each product is a testament to our relentless pursuit of enhancing the culinary experience.

Our products have been designed in Barcelona by some of the best design studios, based on the latest market trends.

Sustainability in Every Step: Our products are more than just items; they are part of a movement towards a greener future.

This year, we have redefined our goals to ensure that every product is environmentally friendly, from recycled materials to more sustainable production and packaging.

Recycled Aluminum: We understand the importance of preserving our natural resources. That's why most of our products will now be made with 100% recycled aluminum. This initiative not only reduces the demand for aluminum extraction but also significantly lowers our carbon footprint processes.

Eco-Friendly Packaging: We say goodbye to plastic and welcome cardboard and paper from responsibly and sustainably managed forest sources.

A Sustainable Future: Our vision is to be leaders not only in quality but also in environmental responsibility. Our goal is that at least 60% of our sales in 2025 be products made from recycled materials.

At BRA®, cooking is a passion, both for those who enjoy our products and for the planet that hosts us. Join us on this journey towards a more sustainable kitchen.

ALUMINUM

PFOA FREE

Cast aluminum pieces are suitable for all types of stovetops, and they can also be used in the oven. The combination of this material with the application of the best non-stick coatings (PFOA-free) allows for cooking with minimal use of oil or fat, meaning healthier cooking. BRA® offers modern and elegant designs, striving to provide their products with maximum functionality and versatility to achieve the best performance in the kitchen..

INFINITY *Forever Cooking*

Fundición de aluminio
CAST aluminium

6
mm

Highly deformation-resistant cast aluminum cookware with a cutting-edge design. Now featuring the ultra-durable Teflon™ MAX nonstick coating, PFOA-free, and offering 50% more resistance to abrasion and scratching than its predecessor, Teflon™ Profile. **Removable handles** for maximum functionality in the kitchen. Oven-safe up to 220°C. Easy to store and space-saving. Easy to clean and suitable for all types of stoves, including induction. Infinity stands for excellence and practicality in the kitchen, now with the most resistant non-stick coating.

- Great non-stickness and PFOA free
- Fat free cooking
- Maximum heat output
- Very thick 6 mm base
- Full Induction energy saving system
- Tempered glass lid with valvule and anti-impact silicone ring
- Ergonomic handle for a perfect hold
- Cookware suitable for the oven (without lid) up to 220°C
- Suitable for all kind of cooktops, including induction
- Easy inside and outside cleaning
- Designed by Josep Llusca

- 1 Premium coating PFOA free
- 2 Reinforced midcoat with silicon carbon formations. Maximum non-stick layer
- 3 Primer incorporating ceramic
- 4 Undeformable cast aluminum with MetalTec enhancement
- 5 Non-stick outside coating

Designed by
JOSEP LLUSCÀ

efficient

6 mm

The Efficient cookware collection is the best-selling cast aluminum range in Spain. It has established itself as the defining collection of the brand, becoming an identity of its own, synonymous with quality, robustness, and extraordinary non-stick properties. Featuring a triple-layer Teflon™ Platinum Plus non-stick coating, PFOA-free, it is designed for maximum robustness and great resistance to deformation, not only due to the material used, but also due to the careful study of thicknesses in each of the risk areas. Efficient is the most successful collection, widely recognized on social media, television, and other media, and also has the widest range of products in the market

- Excellent non-stick properties and PFOA free
- Fat free cooking
- Long service life
- Very thick 6 mm base
- Full Induction Energy Saving System
- Tempered glass lid
- Suitable for all kind of cooktops, including induction
- Easy inside and outside cleaning
- Dishwasher safe
- Removable silicone mittens
- Designed by Josep Llusçà

- 1 Maximum non-stick layer PFOA free
- 2 Reinforced midcoat
- 3 Hard mineral fixing layer reinforcement
- 4 Undeformable cast aluminum
- 5 Non-stick outside coating

COMPAC^{PRO}

Designed by
JOSEP LLUSCÀ

5 mm

- Great non-stickness and PFOA free
- Extraordinary scratch resistance
- Full Induction energy saving system
- Very thick 5 mm base
- Detachable soft-touch handles on frying pans
- Removable silicone handles on casserole dishes
- Tempered glass lid with valve & silicone anti-impact ring
- Maximum heat output
- Fat free cooking
- Cookware suitable for the oven (without lid and handles) up to 220°C
- Suitable for all kind of cooktops, including induction
- Fully stackable

Compac Pro cookware revolutionises kitchen storage with its innovative space-saving, stackable design. All pieces are made from high-quality cast aluminum, ensuring even heat distribution for precise and even cooking. Its cutting-edge non-stick coating, free of PFOA, lead, and cadmium, allows for cooking with less oil and makes cleaning easier. It's compatible with all stovetops, including induction and ovens. And it's extraordinarily scratch-resistant allowing for everyday use without compromising on performance. The frying pan handle is removable with a soft-touch finish and easy snap-on fit, creating a secure and reliable grip. The casserole dishes have removable silicone handles. And the lid is made using tempered glass with a valve and anti-impact silicone ring.

Hybrid Cell

ACERO
INOXIDABLE
18/10
STAINLESS
STEEL

2.5
mm

- 1** 18/10 austenitic stainless steel on the interior for completely safe food contact, with a thickness of 0.5 mm.
- 2** 1.5 mm thick aluminum layer that covers the entire body of the pan, not just the base.
- 3** 0.5 mm thick outer layer of 430 stainless steel with 18% chromium to create an excellent magnetic field.

The Hybrid Cell pan comprises of three layers; one aluminium layer between two layers of stainless steel. The aluminium layer extends throughout the pan allowing heat distribution to rise along the walls of the pan, which is useful for certain cooking methods that require a large volume of food exceeding the base of the pan, such as stir frying. The entire exterior material is 18/10 stainless steel (AISI 430), making it magnetic. This makes it the perfect cookware for induction stovetops, generating a highly efficient magnetic field and requiring less energy from the induction cooktop. There are 4 sizes of pan available. It has a PFAS free, ceramic non-stick coating and it is dishwasher and oven safe.

FULL INDUCTION

The 18/10 stainless steel offers the best durability in our kitchen. BRA® stainless steel pots and pans are the perfect kitchen basics both for cooking traditional broths and stews or for daily cooking that doesn't require non-stick coating. The tripleforged diffuser bottom on each piece ensures perfect heat distribution thanks to its encapsulated aluminum inside.
